FOR PATIENTS AND FAMILY

Whether recovering from an illness, injury, or managing a chronic condition, receiving care at home provides you with peace of mind and well-being. In partnership with physicians, hospitals, and managed care organizations, Pegasus develops personalized care plans and works with you to establish and achieve goals for your improvement and recovery.

While at home, it is our job to keep you safe and reduce the likelihood of rehospitalization and emergency room visits.

In conjunction with our skilled care services, many of our clients also require Personal Care Services to help them with daily tasks such as bathing, meal preparation, medication reminders, and light housekeeping.
